

ingenio flexio 100300

Laboratory Flexo printing machine with pneumatic drive. Includes integrated cold air vent, variable speed and contact pressure settings. The ideal device for testing inks and coatings and their print or coverage results on various substrates.

- Roll-to-roll
- Custom anilox rollers in chrome/copper or ceramic
- Air mandrel for polymer or rubber sleeves
- Quick change printing tools
- Simple cleaning process
- Optional: Fan heater

Technical data

Anilox roller

Diameter: 100 mm

Cylinder width: 300 mm

Maximum printing width: 260 mm

Maximum printing height: 314.16 mm

Speed

10 m/min to 40 m/min

Air pressure

6 bar to 8 bar

Power supply

220 V
