

Color-proofer and Laboratory Machines

Especially for conductive inks and printed electronics

Pneumatic-driven rotogravure laboratory proofer with variable speed and print pressure

CP 90-200

Flat-bed principle

Ex-protected version

Including printing cylinder CP 90-200-13

Further cylinders available

Print cylinder diameter of 90mm

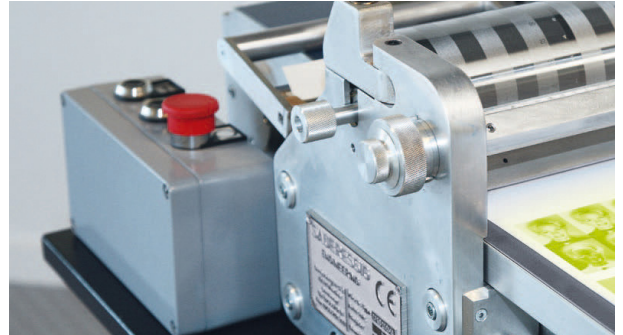

Print cylinder width of 200mm

Maximum printing width 175mm

Speed between 10 and 50m/min

Air pressure between 6 and 8bar

Table length 2 or 3 cylinder revolutions

Manual printing and washing rotogravure laboratory proofer with variable speed and print pressure

CP 90-60

Flat-bed principle

Ex-protected version

Including printing cylinder CP 90-200-13

Further cylinders available

Mobile carriage available

Print cylinder diameter of 90mm

Print cylinder width of 60mm

Maximum printing width 50mm

Table length 2 cylinder revolutions
